📍 Toronto, ON

SUMMARY

I am a new web developer with a background in science and law. As a legal assistant and a research assistant, I have experience working under pressure with deadlines and tasks with varying degrees of importance. Staying organized and problem-solving were the skills that I needed to thrive. I plan to transfer these skills and the new technical skills I obtained from learning web development into my new career.

EDUCATION

Full-Stack Web Development Program

CareerFoundry

📅 06/2023 - Present   📍 Toronto, ON

WORK EXPERIANCE

Legal Assistant

Solutions Corporate Law Clerk Services

📅 10/2021 - 08/2022   📍 Toronto, ON

- Worked in a fast-paced office, taking on multiple corporate filings, extra-provincial registration, invoicing, large document organization and other tasks.
- Communicated professionally with law firms, directors, and other clients to provide them with a personalized service resulting in great feedback on my work.
- Used to-do lists, notifications, and notebooks to organize and time manage every activity to make sure no tasks were left undone which is very important in time-sensitive matters like corporate filings.

Research Assistant

Genomadix

📅 09/2018 - 05/2019   📍 Ottawa, ON

- Cultured bacteria in Biosafety Level 2 Lab, which were utilized in running experiments by fellow researchers.
- Ran qPCR using the cultured bacteria within Spartan Cubes, to make sure that the bacteria are in a healthy state and can be used in experiments.
- Cleaned Laboratory spaces and safely disposed of any harmful substances/objects for the safety of others.

MY OPEN-SOURCE WORK

FaveFlix

An application to manage favourite movies. Made with Angular, and designed by Angular Material. Utilizing a RESTful API and MongoDB database. MEAN stack.

https://hakobya4.github.io/myFlix-Angular-client/welcome

ZestFriends

An application that allows user to chat with each other. Made with React Native, Gifted Chat and Firebase to store and sync data in real time.

https://github.com/hakobya4/hello-world

WORK EXPERIANCE

Shipping Clerk

Hotspot Auto Parts

📅 05/2016 - 05/2018   📍 Toronto, ON

- Managed stock of an auto parts store carried heavy equipment and general tasks around the store which resulted in meeting expectations and tasks well done.
- Communicated with co-workers and customers to make sure I was doing things correctly and that I was delivering excellent service.

VOLUNTEERING

Volunteer

Benadent Dental Services

📅 11/2022 - 05/2023

- Helped the front desk with everyday duties like calling patients and reminded them about their appointments and following up with insurance payments.
- Helped staff with sorting out supplies and working under supervision in the sterilization area.

Research Volunteer

St. Micael's Hospital

📅 09/2021 - 08/2023

- Worked with a group of colleagues and the principal investigator to write a review article regarding the epidemiology and treatment of psychosis in elderly patients. (DOI: 10.1016/j.psc.2022.07.001)
- Assisting in data management and literature reviews and any other tasks, which resulted in becoming a reliable member of the research team.

MY OPEN-SOURCE WORK

Meet App

Serverless, progressive web application (PWA) with React using a test-driven development (TDD) technique. The application uses the Google Calendar API to fetch upcoming events.
